Ratnapura, Sri Lanka

I am a motivated and results-driven Associate Full Stack Developer with experience in developing, deploying, and maintaining web applications using Laravel, React.js, PHP, JavaScript, and MySQL. I have worked on full-stack business solutions including CRM systems, E-Wallet applications, portfolio websites, and custom management systems. Skilled in frontend and backend development, REST API integration, database design, and web hosting using cPanel and Hostinger, I enjoy building secure, scalable, and responsive applications. I am committed to continuous learning, teamwork, and delivering high-quality software that meets business and user requirements.

EDUCATION

PROFESSIONAL EXPERIENCE

Grow More Solutions (Pvt) Ltd Feb 2026 – Present
Associate Full Stack Developer

Promoted to Associate Full Stack Developer after successfully completing a six-month internship. Develop and maintain full-stack web applications using Laravel, React.js, PHP, JavaScript, MySQL, HTML, and CSS. Build scalable business solutions including CRM and E-Wallet systems, integrate REST APIs, and deploy applications using cPanel and Hostinger while collaborating with clients and team members to deliver high-quality software.

Grow More Solutions (Pvt) Ltd Aug 2025 – Jan 2026
Full Stack Developer Intern

Assisted in developing responsive web applications using Laravel, PHP, JavaScript, HTML, CSS, Bootstrap, and MySQL. Contributed to authentication systems, dashboards, database integration, application testing, debugging, and deployment while working closely with senior developers on real-world projects.

PROJECTS

CRM Management System	2025/2026
Developed an enterprise CRM using Laravel, React.js, PHP, and MySQL. Implemented user management, account management, financial transactions, dashboards, and reporting features.	
E-Wallet System	2025
Built a secure digital wallet application using Laravel, Bootstrap, and MySQL. Developed wallet management, deposits, withdrawals, transaction history, and role-based authentication.	
SP Home Service Management System	2025
Developed a full-stack home service booking application using PHP, MySQL, HTML, CSS, and JavaScript. Implemented customer registration, worker and admin dashboards, booking management, and PDF invoice generation. Designed a responsive user interface with service filtering, profile management, and review features.	
E-Mart Grocery Store Website (Group Project)	2024
Built a responsive e-commerce website using HTML, CSS, and JavaScript. Developed product listings, shopping cart, category filtering, and order summary features. Collaborated with team members to deliver a user-friendly online shopping experience.
